Re: Docket # 1370.249US1 - Client Ref. No. CPOL 956427 / SEQ 18612
U.S. Patent Application Serial Number: 10/751,340
Title: METHOD AND APPARATUS FOR DEVICE COMMUNICATIONS
Originally Assigned to: GlooLabs, Inc.

Dear Mr. Lovy,

We require your assistance to advance the prosecution of the above-identified patent application. We thank you for your reply to our e-mail of January 23, 2008, in which you have provided us with your new street address.

You and your co-inventors all signed a declaration for this patent application a few years back. You, David Arfin, and Edward Seseek made corrections to the sheets by-hand without initialing and dating the changes, and the United States Patent and Trademark Office (USPTO) has rejected your signatures because of this informality.

Attached to this letter is a copy of a Substitute Declaration for your signature. Also enclosed, for your reference only, is a copy of the final draft of the application and the drawings; a copy of the original, defective declaration; and a copy of the Office Action dated July 12, 2007 in which the examiner has required a new declaration.

Please review your personal information on the enclosed Substitute Declaration. If you find any errors in your personal information, please cross-out the incorrect parts and hand-write in the correct information and initial and date your changes.

You only need to return your one signed page, and you can return your signed page independent of the other inventors. You can either fax that page to me at 612-339-3061, or scan and e-mail it to me at jferguson@slwip.com, or send back to me via USPS using the enclosed self-addressed stamped envelope.

To date, we have received David Arfin's signed page.
